"I'm Ashamed"

To go anywhere with my face in this condition is the expression of a very natural feeling. To a beautiful woman an eruption on the face is the greatest of calamities, but very many women are cured by Dr. Pierce's Golden Medical Discovery, and the skin recovers its natural bloom and softness. "Golden Medical Discovery" is a medicine which acts directly on the blood, purifying it, increasing its quantity and its richness. Eruptions, blotches, pimples, etc., are but surface signs of the corrupt blood current underneath. "Discovery" cleanses the blood, and so cleanses the skin.

"For about one year and a half my face was very badly broken out. I tried many different kinds of medicine, but nothing helped. At last I got Dr. Pierce's Golden Medical Discovery, and I took one bottle of it. I noticed a change, and after taking a few more bottles I was entirely cured."

Dr. Pierce's Golden Medical Discovery cleanses the blood, and so cleanses the skin.

KENTUCKY SLANDERED ABROAD.

The Evening Post Calls the Boston Herald Down, as Well as the Old Courier-Journal.

The people of Kentucky cannot expect to escape the effects of calumnies uttered daily during the past two years by the Courier-Journal. It has so often falsified the daily occurrences in politics and in courts that the practice has become habitual.

Non only has it become habitual, but it has become contagious. There are journals of the North that, in dealing with Kentucky affairs, take their cue from the Courier-Journal and try to improve on that abandoned newspaper.

The Courier-Journal undertook to add to Gov. Bradley's testimony by "revealing" what he was supposed to have said in the grand jury room to that said on the witness stand. Then it mutilated what Gov. Bradley did say, in order to give it a sinister aspect.

A man unknown to him approached Gov. Bradley, and pointed to a crowd of men in the Statehouse yard, said some of them were going to kill Mr. Goebel. Mr. Bradley sent for certain Republican leaders and insisted that they investigate the story and stop the plan, if there was one.

Later they reported that the whole story was a fake, that no one intended to harm Mr. Goebel. Instead of thus stating the truth, the Courier-Journal said that Mr. Pinney reported that no harm would be done Mr. Goebel "that day," and this satisfied Mr. Bradley.

We have, in a recent editorial in the Boston Herald, an illustration of the evil effects of this persistent lying by the Courier-Journal. The Herald, in its bold perversion, goes beyond its model, the Courier-Journal, and wares at a loss to understand why it insists on a false account of every occurrence in Kentucky, when it is so easy to get at least some facts of recent history and permanent geography.

The Herald attaches great importance to what it terms "recent revelations" in connection with the assassination of Mr. Goebel. It praises Mr. Bradley not unjustly, but does it merely to

emphasize the objections to his successors, and in an editorial review undertakes to repeat what Gov. Bradley said. Here is the version of Gov. Bradley's evidence, as it appears in the Boston Herald:

"Gov. Bradley says that Capt. Ripley, one of the men on trial for complicity in the crime, told him that he had brought the Courier-Journal, among whom the shot was fired that murdered Goebel, to Frankfort, and was reproached by Gov. Taylor for not having introduced them earlier."

Capt. Ripley is not from the mountains, but from Henry county. Henry county lies between Louisville and Frankfort. Capt. Ripley's home is about twenty miles west of Frankfort and forty miles east of Louisville.

Capt. Ripley was a captain of a militia company and had nothing to do with bringing any mountain men to Frankfort. He did not take his militia company to Frankfort until he received an imperative order from the Adjutant General, issued after the shooting of Goebel, and he did not get his men to Frankfort until the day following the attack.

Capt. Ripley did not tell Gov. Bradley he brought the mountain men to Frankfort; no one told Gov. Bradley any such thing, and Gov. Bradley never said anything like it.

It is not contended that the shot which killed Goebel was shot from among the mountain men.

The mountain men, so-called, were assembled at Frankfort under the direction of Pinney, Powers, Colton, Golden and others. They were joined there by other sympathizers. They met on the Capitol steps and passed resolutions condemning the organized efforts of the Legislature to set aside the officers chosen by the people. The Legislature refused to receive the resolutions and that night the mountain men, so-called, dispersed as expeditiously as it came.

After the mountain men left Frankfort, Capt. Ripley went to Frankfort to counter with the Adjutant General the equipment of his company. While there he saw the Governor. Gov. Bradley says that Capt. Ripley in May said to him that when he saw Gov. Taylor January 29, Gov. Taylor said to him: "My God, haven't you got your company ready yet? Goebel has not twenty-four hours to live." Here is what Capt. Ripley says on the witness stand: "On Monday, January 29, I went

into Gov. Taylor's office. He stood leaning on the fireplace looking badly. I expressed sorrow at his appearance. He remarked that these were terrible times, and said that some irresponsible crank might kill Goebel or himself. I referred to the object of my visit, the getting of equipment for my company, and he responded, 'My God, haven't you gotten your company here, or 'Your company ready yet? I left him and went home that afternoon.'"

The man who sees in this story, taking either version, any evidence of a conspiracy to assassinate Mr. Goebel any evidence that either Taylor or Ripley was at that time contemplating Goebel's assassination, merely colors it with preconceived ideas.

That it bears out no such is evident from the desperate efforts of the Courier-Journal to rewrite it. To meet the necessities of its own position and contention, which requires it to hang Taylor and damn the Republican party. Instead of acceptance the version of the Courier-Journal the Boston Herald amplifies it and constructs it after its own fashion, leaving about the story not the least semblance of truth and from very ignorance even of Kentucky geography, making it self absurd. Yet the Herald undertakes to tell the President about the mistake he is making in Cuba and believes itself to be an enlightened exponent of educated public opinion.

A WORTHY SUCCESSOR.

"Something New Under The Sun."

All Doctors have tried to cure Catarrh by the use of powders, acid gases, inhalers and drugs in paste form. Their powders dry up the mucous membranes causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and speciality of the treatment of Catarrh, has at last perfected a treatment which when faithfully used, not only relieves at once, but permanently cures Catarrh, by removing the cause, stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the affected parts. This wonderful remedy is known as "Snuffles the Guaranteed Catarrh Cure" and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"Snuffles" is the only perfect Cure ever made and is now recognized as the only safe and positive cure for that annoying and disgusting disease. It cures all inflammation quickly and permanently and is also wonderfully quick to relieve Hay Fever or Cold in the Head.

Catarrh when neglected often leads to Consumption. "Snuffles" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure Catarrh in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "Snuffles" the "Guaranteed Catarrh Cure."

MAMMOTH TURBINES.

Six New Ones For the Niagara Falls.

A new feature of much interest has been added to the delights of the American Niagara Falls. The new turbines will be installed in the new wheel pit now in course of construction. The design of the new turbines will differ materially from the design of those now in use in the present wheel pit. This change is significant of the fact that the Niagara Falls Power Company intends that the installation of its new plant will be the beginning of a new era in the development of the great power of the Niagara River. The turbines now in use were designed by Messrs. Pictet & Co. of Geneva, Switzerland, while the new turbines are to be built after designs prepared by Escher, Wyss & Co. of Zurich, Switzerland, the plans of which company were accepted in a competition. The turbines in the old pit each have two wheels, while the new turbines are each to have but a single wheel. With these new turbines in place in the wheel pit, the output capacity of the Niagara Falls Power company will be 80,000 horsepower. There will be space in the new pit for five additional turbines, each of 5,000 horsepower capacity, and with these in place the total output of the two pits will be 105,000 horsepower.

A Beautiful Scene.

Narrows, Ky., April 22 1901.

On my recent trip to the West I visited what is perhaps the most unique last resting place of a famous personage to be found in the world. A magnificent cascade descending 500 feet in seven leaps in Cheyenne Canon, Colorado, and known as Seven Falls, is one of the chief attractions of the Colorado mountains, whose natural scenery is famed all around the globe. Up near the mountains crest where this pretty stream makes its first leap for liberty, a silver lake reflects the craggy peaks above. Hard by this crystal lake in a pretty grove of stately hemlocks, sleeps all that is mortal of Helen Hunt Jackson, that delightful writer whose prose and song have made her famous in two hemispheres. NERVOUSNESS OF WOMEN. What Peruna Has Done For a Brilliant Actress.

MISS JULIA MARLOWE.

In a recent letter to The Peruna Medicine Co., Miss Julia Marlowe of New York City, has the following to say of Peruna:

"I am glad to write my endorsement of the great remedy, Peruna, as a nerve tonic. I do so most heartily." Julia Marlowe.

Nervousness is very common among women. This condition is due to anemic nerve centers. The nerve centers are the reservoirs of nervous vitality. These centers become bloodless for want of proper nutrition. This is especially true in the spring season. Every spring a host of invalids are produced as the direct result of weak nerves.

This could be easily obviated by the use of Peruna. Peruna strikes at the root of the difficulty by correcting the digestion. Digestion furnishes nutri-

Stevenson and other great writers, Helen Jackson sought that solitude in death so essential to the musings of great souls in life. But it is not the solitude alone that awes and inspires the visitor to her tomb. The mighty, massive, mossless walls of stone stand like a frowning fortress against which the artillery of the stormcloud puts its energy to fruitless waste and alone their cloud-bathed summits lovely pines stand leaning out to catch the resurrection call and wait it inward to the illustrious dead.

Some years ago Helen Hunt Jackson visited Seven Falls as was so impressed with the beauty, solitude and grandeur of the scene, that she requested to be buried here. She asked that no stone, sculptured by the hands of men mark her grave, but that instead, her friends, who might visit her hallowed tomb, should each bring a stone and lay it on her grave. How well she was loved by those she served in life is eloquently proclaimed by a mighty pyramid of unsculptured stones, gathered from every land, that shelters her honored dust.

Many a stranger sheds a tear upon turning away from this beautiful remembrance of death, and I, too, was loath to leave the wondrous spot where the great soul of Helen Hunt Jackson, wooed to sleep by the soothing music of the murmuring cascade and sheltered from heat and storm by the silent, but mighty cannon walls, awaits a never birth of time.

THAT INTERROGATIVE "WHO?"

The interrogative pronoun who seems to be the source of an unusual amount of anxiety for our contemporary and in the introductory to a few things he is desirous of knowing, which knowledge we shall freely give so far as the occasion will warrant, this extent, and the validity of our answer, we submit to our readers: Who so maliciously and cowardly abused Hon. D. H. Smith on the occasion of his last speech in Hartford, and after he had left the place, called him a name that is not fit to print in decent journals?

If Mr. Smith was abused on the occasion of his speaking in Hartford during the last campaign through THE REPUBLICAN, it was done by the same man, who assassinated the character of Mr. Heber Matthews in exposing the "A. G. Benton" letter, and who traced that letter to the Herald's door, and who is still waiting for that gentleman to say: "I didn't write it!" We said nothing derogatory of a man that would make the character of speech that Dave Smith made in Hartford, and have no apology to make.

Who, during his life and even after death, has been the constant backslider and character assassin of Hon. Wm. Goebel, in this community, calling him "a murderer, a robber, a thief and a professional liar?"

This demands a little explanation, which has heretofore been given in these columns, but which the anxiety of "A. G. Benton" demands a renewal. In 1895, Wm. Goebel wrote a letter to the Covington Ledger, in which he referred to John L. Sanford as "Gonorrhea John L. Sanford." Mr. Sanford, like any other true Kentuckian, preferred to die rather than live under the odium of this infamous charge, and proceeded to adjust matters. He met Wm. Goebel on the streets of Covington and asked him if he wrote the article containing this malicious charge against his private character and to this interrogation Mr. Goebel answered, "I did," and at this instance, both drew revolvers and fired. Sanford fell dead, Goebel escaped unhurt. Is this not murder, provoked and premeditated, what is it? In view of these facts, we charged Mr. Goebel with being a "murderer, which no man has had courage, as yet, to deny. On the convening of the State Democratic Convention in 1899, Mr. Goebel appeared with less than one sixth of the delegated votes, but through his "inhumanity to man," by false promises made in bad faith, by expelling delegates and seating men who had never been in a convention, and by protracting the convention until all the self-respecting gentlemen left in disgust, he succeeded in "getting" the nomination. In view of this manner of conduct, and his shameful abuse of the man who made him, John G. Carlisle, we brought our charge. We appeal to the sober thinking citizens to

judge as to the righteousness of our conduct and in doing this, will they not forget, as a fulfillment of all we have said, the contest—the manner in which 2,983 majority votes for W. S. Taylor were turned in favor of the defeated man. This done we shall be thrice exonerated from the odium one "A. G. Benton" seeks to gather about the editor and the journal he writes for.

Who, without provocation or cause, attacked the personality of our worthy judge and christian citizen, Judge J. P. Miller, applying to him the vile epithet, "a political hermaphrodite?"

We have frankly and impassionately reviewed the course, changes and conduct of Judge Miller, citing facts which our friend himself has recorded, which bear record of all we have said. We confess that we referred to him as a "political hermaphrodite," challenging all comers to dispute it. In view of his record and his recent confessions made to the gods of his ambition:

Who so maliciously and constantly assailed the character of Judge R. B. Wedg during the recent Republican campaign in this county, spreading all kinds of injurious reports concerning him, of things which were not only untrue but slanderous?

The reports here referred to are of "A. G. Benton" origin. No gentleman would circulate them, much less publish them. "Mr. Benton" will this suffice?

Who was the author of the notorious "Goebel" article, which classes every man who voted for Mr. Goebel as "a thing of ignorance, endorsing, thereby, robbery—an animal not susceptible of education?"

The author of the Goebel article now answers "A. G. Benton's" interrogations. This was intended not for gentlemen, for christian men, for men who believe in a republican form of government—favoring acquiescence the voice of the majority, but for the "A. G. Benton" element of the Democratic party, for those who believe in grand larceny and persecution.

Who procured a boy to take from the Herald office, without the knowledge or consent of the editor or the proprietor, a proof-sheet to be used in assassinating the private character of the Herald's editor, and who accepted and used this property with full knowledge of how it was procured?

The proof-sheet here referred to—of half-pint fame—was not procured to assassinate the private character of the Herald's editor, but was presented to us by a boy, a christian young man, in defense of his own private character, his standing for truth and veracity and the good name of his father, whose reputation, like his elder son's, was at stake and which was above reproach. It was not until after the Herald's editor had vainly attempted to induce this young man to purport himself to sign a sworn statement that what he said, in an unguarded moment, was false, untrue; that what he had seen with his own eyes, was a delusion, a dream, a fake; that this "proof-sheet" was produced in sheer self-justification. Can any one find fault with the conduct of this young man, when he was being urged by this inebriate to subscribe himself to a known falsehood. We had hoped that this "half-pint" affair was of the past, as it was only a personal affair, but somehow the *scribble* holds it dear and will not permit it to be eradicated from the other rubbish of his brain.

Who goes even to the depths of the tomb to vilify the character of a man for political effect, as the public will bear witness by being reminded of the attack upon Judge A. B. Baird, one of Hartford's most worthy and beloved citizens, long since dead?

Does the nominal editor intend this insinuation for us? If he does, we presume he holds it to be a sin for us to reproduce history, which reflects upon the political veracity and standing of the dead. What we have said, was a repetition of what a prominent Democrat caused to be printed and circulated in '78, and this, too, in the time of a heated campaign. Our contention is that we have recorded nothing but facts, which we challenge disputed. If there be any other "who's" injected into the inquiring mind of the Herald's readers, it may be that we will get the benefit of them, but in all probability his interrogations will be transmuted into billingsgate and invective.

THE RIPLEY TRIAL.

The acquittal of Garnett Ripley was no surprise to those self-thinking people that read the testimony of that trial. The fact that the jury was composed of twelve Democrats made this case somewhat apprehensions and there was ample room for it, too, because in a free, fair and impartial trial, especially when politics is involved, the jury will not be packed with partisan men. The fact that a man, against whom not one scintilla of evidence could be found either by fair or foul means was arraigned before court and put on trial for his life will ever remain a stigma to the fair name of Kentucky. The prosecution in that case knew just what they were going to prove. They knew that the evidence against this man would not justify the hanging of the most worthless cur, and yet, for two weeks this man Ripley's life hung in the balance. It was proven beyond all doubt that the defendant was never in Frankfort but twice, once when Bryan came to Kentucky to advise the contest, the other, when he went to see the Governor about organizing a company of State guards, which happened to be on the day before the assassination.

This was the testimony in the case and no other testimony was produced; tending to incriminate him.

Of course the depraved journals of assassination of character, were expected to doom, damn and deliver this man, they were expected to hang Taylor and damn the Republican party, all on the trial of this innocent man. Had they done anything short of this, they would have repudiated their past record, which to them would have been equivalent to total destruction. We must confess that we have no faith in a prosecution that is conducted on the principles which have so eminently characterized this Goebel prosecution. If their object had been to capture the real man that assassinated Mr. Goebel, why did they not procure the services of an unbiased corps of detectives and allowed them to hunt down the assassin? Nothing was ever more plainly shown than that the sole object of the prosecution was to "hang Taylor and damn the Republican party," as James Andrew Scott expressed it. The very idea that the public is cited to the Ripley trial as an ideal of justice, is on its face, absurd. Yet we are today facing this very state of affairs. It would have been no greater sin, judging from the evidence in the case, to have caught up any other Republican in Kentucky and put him on trial for his life, than it was in the Capt. Ripley case.

The friends of Esq. Ed. Massie, of the Buford Magisterial District, are earnestly urging him to announce his candidacy for Magistrate in that district. "Squire Massie, considering his location, his prestige and standing with his home people, the remarkable campaign he made in 1897, when he was elected by a majority of 2, his ability and qualification for the office, is the logical candidate in that district. As for the democratic stand—redistricted—it is 69 Democratic, but with "Squire Massie before the people for Magistrate, this majority would fade away, like snow flakes in June. While we do not presume to advise "Squire Massie, or choose for the Republicans of Buford Magisterial District, their standard bearer, we earnestly beg leave to call upon the party to put out the very best, the most popular man available, that a majority of 69 for the enemy, may be changed into a Republican majority. It is the duty of the party to put out the very best men in the districts, while it is equally the duty of every man to abide by the party's wishes.

The man who stood on a goods box in the court house yard and addressed the recent Democratic mass convention, declaring that the brains and wealth of Ohio county citizenry were in the Democratic party, has been indicted by the Daviess county grand jury, and the charges preferred are of the gravest hue. Democratic brethren, be candid with us, where is the brains, the wealth, the common, every-day horse sense in the conduct of such a record of one of your officials? Is it with you.

Mr. W. H. BARNES has offered himself for the political guillotine, which is set for November 5, by accepting the Democratic nomination for County Attorney, which Mr. Simmerman so wisely avoided.

Defenses Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a running, sore, or it may be, a deafening noise in your ears, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, since out of the ear are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars, free.

A Wolf in Sheep's Clothing.

I once heard a sermon preached from this subject, "A wolf in sheep's clothing." Now if you will annex the objective political and let it read "a political wolf in sheep's clothing" the text will be truly applied to the subject on which I am attempting to write. In 1896 the Democrat party made an agreement with the Populist party to unite their forces and beat the Republicans for the county offices. It proved a failure with the exception of one man, J. P. Miller, who was voted for, and elected as a Populist.

He rallied his Populist friends by telling them to fight a good fight and rest assured that they would have a Populist for County Judge. They used every available means possible to see their leader (as they thought) carry the banner to victory. He carried the banner for them, but alas! He has deserted. He saw that his crowd was too small this time and realized fully that there was no chance whatever for a compromise and looking at the platform he saw that it was too weak, all things being considered, he must needs take his flight. They now behold him through a glass dimly, not face to face, but with his back turned and find him perched upon another platform which appears to be a little stronger. One however which he can afford to stand on until he is defeated. Then he may 'but up against another. Is this the kind of man the people of this county want for County Judge? Do they want a political fake? Or do they want a man who has always been loyal to his color?

In the first place I wish to say that

Populist principals are the same they were in 1896 Democrat principals are the same. Judge Miller understood both parties as well then as he does now but they failed to understand him. What was one of the "hooperboos" raised against Squire Park when he made the race against Judge Miller? He was harshly criticized for having cast a vote for a neighbor who was being endorsed by the Populists, who brought this charge? The men who opposed him. Did Judge Miller charged him with this?

We don't know
But many think
Sly as he seemed
It could have been
Enough it was
For him to win.

How can a political fake of this kind go to his Populist friend and put him on the back and say, come now and let's slay another good man. True it is that I have a different costume, but the only thing for us to do now is to let the Democrats swallow the whole business and let me slide in and be your County Judge on the strength of it. I cannot deny the fact that I was one of you in '96, but things have changed.

I firmly believe and every candid man believes the same) that if political air could be blown as congenial with the Populists as it was in '96 and no friction whatever in the political machine, that Judge Miller would be found doing business at the same old stand. This two-fold trick business worked in '96 and the same fellows are trying the same thing again by using every cat-paw possible to defeat one of the best tickets ever selected to fill our county offices. This fact which is evident will be proven by the official conduct of each aspirant. Their election is certain for we have no shifTERS on the ticket but all are solid men.

THE HOME GOLD CURE.

An Ingenious Treatment by Which Drunkards are Being Cured Daily in Spite of Themselves.
No Noxious Doses. No Weakening of the Nerves. A Pleasant and Positive Cure for the Liquor Habit.
It is now generally understood that Drunkenness is a disease and not weakness. A body filled with poison, and nerves completely shattered by periodical or constant use of intoxicating liquors, requires an antidote capable of neutralizing and eradicating this poison, and destroying the craving for intoxicants. Sufferers may now cure themselves at home without publicity or loss of time from business by this wonderful "Home Gold Cure" which has been perfected after many years of close study and treatment of inebriates. The faithful use according to directions of this wonderful discovery is positively guaranteed to cure the most obstinate case, no matter how hard a drinker. Our records show the marvelous transformation of thousands of Drunkards into sober, industrious and upright men.

Resolutions of Respect.

Whereas, The aged and death has reposed our school, and taken from us our beloved teacher, Miss Beulah Coats, who departed this life April 4, 1901. Be it resolved

First, That Taylor Mines School of which she was teacher at the time of her death, has lost a most valuable and dearly loved instructor.

Second, That her short life so full of noble deeds is worthy of emulation by all.

Third, That we her pupils, mingle our grief with that of her bereaved family and relations.

Fourth, That we extend to them our heartfelt sympathy, and beg to assure them that the virtues of their loved one shall live in perpetual

memory in our heart and affections.

Fifth, That while we deplore the death of our dear teacher, we submit with reverence to Him who doeth all things well.

Sixth, That a copy of these resolutions be sent to the bereaved family and a copy be furnished the county papers for publication.

Elk's Carnival.

The Elks of Owensboro, Ky., will hold the first street fair ever given in this part of the state for one week, commencing Monday, May 20. There will be a monster display of exhibits of every kind. Over 600 feet of booth space has been sold up to this time.

The finest attractions that money can get have been secured. Among the headlines are Archille Phillian, the spiral globe performer, and the Thompsons, who make a head-first dive from a tower ninety feet high into a four foot tank of water. There will be large parade each day of the fair. In fact, something will be doing every minute to amuse the people.

Wives cure your husbands!! Children cure your fathers!! This remedy is in no sense a nostrum but is a specific for this disease only, and is so skillfully devised and prepared that it is thoroughly soluble and pleasant to the taste, so that it can be given in a cup of tea or coffee without the knowledge of the person taking it. Thousands of drunkards have cured themselves with this priceless remedy, and as many more have been cured and made temperate men by having the "Cure" administered by loving friends and relatives without their knowledge in coffee or tea, and believe to-day that discontinued drinking of their own free will. Do not wait. Do not be deluded by apparent and leading "improvement." Drive out the disease at once and for all time. The "Home Gold Cure" is a sure cure for this disease. It is a treatment within reach of everybody. A treatment more effective than others costing \$25 to \$50. Full directions accompany each package. Special advice by skilled physicians when requested without extra charge. Sent prepaid to any part of the world on receipt of one dollar. Address Dept. 1, Edwin B. Giles & Company, 2330 and 2332 Market Street, Philadelphia. All correspondents strictly confidential.

To the Colored People.

A record smasher in the Green River Valley Association. It will be at the First Colored Baptist Church at South Carrollton, Ky., the fourth Sunday in May, 1901. There will be train excursions from Owensboro and Russellville. Also a boat excursion from Calhoun. There will be a prize rally between Misses Nannie Wilson, Nannie B. Moorman, Nannie Herring and Mary Kittinger. A big day with the big guns. Preaching all day by Rev. Larkin Hines, of Hartford, Rev. S. P. Locke, D. D., of Owensboro, Rev. P. R. Whitehead, D. Im Memory

Of little Walter Haden Kowan, son of A. A. and Lilly Rowan. Born last summer when the flowers and trees were in full bloom and died this spring while the buds and the blossoms were wrapped in their husks. Weep not dear parents for little Haden is only a blossom in Heaven.

First in the summer of 1890
Of all the darling children
That ever a household blessed,
We place our baby for compare.

With the fairest and the best,
He came when last the violets
Drooped from the land of spring,
When on the trees the blossoms hung.

Those cups of odorous incense swung,
When dainty robes hung,
How glowed the early morning,
After a night of rain.

When He possessed our waiting hearts,
To go not again,
Dear Lord we said with thankful speech,
Grant we may love the more.

For this new blessing in our cup,
That was so full before,
Second in the spring of '91,
This year before the violets.

Had heeded the spring,
And not a leaf was on the tree,
Nor robin here to sing,
An angel came our solemn night:

Heaven's glory to bestow
And took our darling from our sight,
What could we, Lord at morning light
But weep and let him go.

How dark the day that followed,
That dreary night of pain,
Those eyes now closed and nevermore
To open here again.

Dear Lord we said with broken speech,
Grant we may love the more,
For this new jewel in the crown
Where we had two before.

A FRIEND.

ECZEMA'S ITCH IS TORTURE.

Eczeema is caused by an acid humor in the blood coming in contact with the skin and producing great redness and inflammation; little pustular eruptions form and discharge a thin, sticky fluid, which dries and scales off; sometimes the skin is hard, dry and fissured. Eczeema in any form is a tormenting, stubborn disease, and the itching and burning at times are almost unbearable; the acid burning humor seems to ooze out and set the skin on fire. Salves, washes nor other external applications do any real good, for as long as the poison remains in the blood it will keep the skin irritated.

BAD FORM OF TETTER.

"Four three years I had Tetters on my hands, which caused them to swell to twice their natural size. Part of the time the disease was in the form of running sores, very painful, and at other times it was in the form of small, red, itchy spots. I had tried many doctors and had been told that I would never be cured, and they told me to get on with it. It took only three days to cure me. I am now completely cured. This cure has saved me many years of suffering, and I have never since had any sign of my old trouble."—Mrs. L. B. JACKSON, 1414 McGee St., Kansas City, Mo.

S. S. S. neutralizes this acid poison, cools the blood and restores it to a healthy, natural state, and the rough, unhealthy skin becomes soft, smooth and clear.

"From the almost constant suffering caused by frequent attacks of severe headache, nervousness and stomach trouble, my health became greatly run-down. Although I spent much money with physicians and tried many advertised remedies I never found any lasting relief until I began taking Dr. Miles' Nervine and was cured."

H. J. VOLKER, U. S. Weather Bureau, Washington, D. C.

Everybody Knows

That nervousness and headache go together. The worry and care of business or home, overwork, loss of sleep, improper food—all tend to irritate the temper, derange the digestion, weaken the nerves and undermine the health. This tearing down of the life forces must be stopped. The ebbing tide of health must be checked, and new energy, new life, new ambition infused into the whole system. To do this quickly and thoroughly use

Dr. Miles' Nervine.

It acts directly on the nervous system, quiet the irritation, rests the tired brain and restores the wasted tissues as nothing else can. You should not delay. Get it at once. Sold by all druggists on a guarantee.

MAYDOLE'S HAMMER.

(Benson's Plaster is Pain's Master.)

When Maydole was told that he made "a pretty good hammer," he said, "No, I don't make a 'pretty good hammer,' I make the best hammer that ever was made."

Every carpenter who saw a Maydole hammer wanted one. It was of the best material, perfectly balanced, and the head never flew off. Hammers were divided into two classes—1st, Maydole's; 2d, all the rest.

Plasters are separated by the same line of cleavage; 1st, Benson's Porous Plaster; 2d, all the rest. When, for rheumatic pain, a cold, a cough, kidney trouble or any other disease or ailment that may be treated externally, you ask for a plaster, any honest, reputable druggist will give you a Benson's. He knows it is incomparably the best, and he knows that you know it too.

As the name of Maydole stood for hammer the name of Benson stands for plaster—the "real thing." All the medicinal potencies that are valuable in a plaster are in Benson's. Capicum, Strengthening and Belladonna plasters are out of date.

An army of physicians and druggists, and millions of the people, have written of Benson's Plaster as a remedy to be trusted. Benson's Plaster has fifty-two highest awards. Accept no substitute.

For sale by all druggists, or we will pay postage on any number ordered in the United States, on receipt of 25c. each.

Mr. Ike Seibert and Miss Antha Maples left Tuesday night for Rockport, Ind., on an elopement. Young Seibert is 19, while the young lady is only 16. Objections on both sides to the marriage were enjoined by the parents and this caused the young hearts to seek that Indiana city of matrimonial fame.

Mrs. Lydia Swain died last Friday morning at her home near Prentiss, of a complication of diseases. Her remains were interred Saturday at the home atead burying ground. She was a very highly respected lady, enjoying the friendship and good will of all who knew her. She was the widow of Mr. Allen Swain, who died a number of years ago.

Miss May Gorman, of the Beda community, died Tuesday of dropsy. Her remains were interred at the Westernfield graveyard Wednesday, funeral services were conducted by Rev. J. A. Bennett. Miss Gorman had been afflicted for the past five years, but not seriously until within the past eight months, when the disease took a more serious turn.

Our old friend and schoolmate, Mr. John C. Barnard, who has been in the Philippine Islands, doing battle for his country, called to see us Tuesday. Mr. Barnard has served quite a while in the standing army, having been engaged at San Juan Hill, Cuba, and many other battles and skirmishes on the "molehills" of the Pacific. Mr. Barnard will engage in teaching and the district obtaining his services will be among the fortunate.

Those persons writing obituaries for publication in the REPUBLICAN will confine themselves to one hundred and fifty words. All over that number will be charged for at the rate of 5 cents per line of 6 words per line. Kindly remember this and we shall have no misunderstanding. If you will confine yourselves to prose and abstain from the use of poetry, it will be a great favor to the printer. No communication will be published without the name of the writer accompanies the article.

Mr. Richard M. Williams, of Williams Mines, died Wednesday of a complication of diseases, chief among them was kidney trouble. He had only been confined to his room about a week when the ravages of the disease claimed him a victim. His remains were interred at Goshen church yesterday afternoon in the presence of a number of friends and former associates. Funeral services were conducted by Dr. J. S. Coleman.

MANILA NORMAL SCHOOL.

Dr. Barrows Appointed Principal and \$3,000 Authorized Expended.

Doctor David P. Barrows, Superintendent of City Schools, has been appointed as acting principal of the Normal School by the Military Governor, during this school's preliminary term from Wednesday, April, 10, to May 10, this year. The Military Governor has also authorized the expenditure of \$3,000 for the expenses of this institution.

This Normal School, as has been stated in a previous issue of the Times, has been instituted for the benefit of the teachers of the public schools of the Archipelago, and besides the municipal and provincial teachers the school will be open for applicants to the position.

It is expected to employ the services of about forty English teachers from those now in the city, in the provinces or who are on their way here. The sessions will be held in the building of the Girl's Municipal school.

The normal course will be divided into four different classes under the subjects of English, Geography, Arithmetic and School Management and methods. There will be a number of sub-courses under each subject to accommodate the teachers in various stages of progress. This is for the reason that the municipal teachers have had advantages to improve themselves over the provincial teachers.

Some have been studying English for two years, or during their contact with English speaking people and nearly all have been studying the language most assiduously for the past four months. The brief term of the Normal School is intended to round off this work, so there will be enough teachers to conduct every course in English in another year.

The course in English, for example, will have a sub-course such as English literature and other English; another course in English along historical and scientific lines, and a fifth course in English grammar. Under each of these the work will be arranged to be adapted to the qualifications of the students.

The course in school management will consist of about ten lectures to be given on the duties and responsibilities of school principals such as is expected here, and the same number of lectures or conferences on class recitation, pointing out that which should be avoided or attempted, such as the

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers; they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is overworking in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Klinger's Swamp-Root, the great kidney remedy is now realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle by mail. Write to Dr. Klinger, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Klinger & Co., Binghamton, N. Y.

TRAVEL AND STUDY CLUBS.

Formed in the United States and Canada For a Visit to the Pan-American Exposition.

No one of experience needs to be told how much more pleasant traveling and sightseeing is with agreeable companions than all by oneself. There is truth in the saying that "a pleasure shared is a pleasure doubled."

The fact that it is well to know beforehand something of the nature of what is to be seen and how to get about with the smallest loss of valuable time and inconvenience and get intelligent ideas is equally appreciated by those who have wandered from their own residences in search of pleasure.

It has been the experience of thousands of visitors to Expositions that loneliness, though in the midst of great crowds, robbed them of much of the enjoyment in store and that by reason of not acquainting themselves in advance with what was to be seen they missed the things which might have appealed to them strongest.

In view of all this, the plan of forming travel and study clubs by those who intend visiting the Pan-American Exposition at Buffalo next Summer which has been adopted in many cities and villages of the United States and Canada, is well to be an excellent one.

The membership of these organizations is composed of people of both sexes and all ages practically. The objects are pleasant companionship, arrangements for transportation and accommodations, and an intelligent and comprehensive view and knowledge of the Exposition. The course of study in this country where such a plan has been followed and second, it is said, in the world. The same arrangement has followed most successfully at the Paris Exposition.

It is in co-operation with the various divisions of the Exposition and with the committees of the Men's Board of Directors that the Board of Women Managers of the Pan-American Exposition is, to a large extent, to work.

The following committees have been appointed: Executive, Entertainments and Ceremonies, Fine Arts, Education, Club and Organizations, Publicity and Promotion and Applied Arts. The majority of the members of each committee belong to the Board of Women Managers, but in a few instances appointments have been made outside, taking in those especially adapted to carrying out the work of the Women's Board. To the committee on Entertainments and Ceremonies falls the pleasant task of looking after the social affairs of the Women's Board previous to and during the Pan-American Exposition, arranging entertainments of various kinds for the honorary members of the Board who visit Buffalo, and also entertaining many prominent women who are to be in the city during the Exposition months.

A large number of conventions of women are to be held in Buffalo during the Exposition, but the Women's Board will not in any way be connected with the conventions, although the committee on Entertainments and Ceremonies will doubtless entertain many of the officers and other distinguished members of the various organizations meeting in the city Pan-American year.

The women of Buffalo have in several instances extended invitations to leading women's organizations to hold their conventions in Buffalo during the Exposition, and with the desire to offer every courtesy possible, the committee on Entertainments and Ceremonies will doubtless do a great deal to make it pleasant for the visiting women during their stay in Buffalo.

The committee on Fine Arts of the Women's Board, in co-operation with a similar committee from the Men's Board of Directors, will assist the Director of Fine Arts in arranging for a representative exhibit at Buffalo of the work of American artists.

The Making of Good Coffee

Begins in the growing. Anywhere between the plantation and the coffee pot the flavor may be changed, the quality spoiled by carelessness, inexperience, or unscrupulous methods. From the time Arbuckles' Coffee leaves the hands of the grower until it reaches the user in a sealed packet, it is handled with the same watchful care, the same thought for cleanliness, that you would give any article of food that goes on your table. That's the reason it costs the grocer a cent a pound more than its cheap imitations. The extra cent you pay for

ARBUCKLES' Roasted Coffee

buys much more than a cent's worth of quality and strength. A pound of Arbuckles' Coffee will give you more cups of better coffee than you would get from other package coffees.

Be sure you get Arbuckles' Roasted Coffee. Other package coffees are but imitations of Arbuckles'.

In each pound package of Arbuckles' Roasted Coffee there is a list of articles. With each package in which the list is found the purchaser has bought a definite part of some article to be selected by him or her from the list, subject only to the condition that the signature on the package is to be cut out and returned to our Nation Dept. You should see this list. Address all communications to

For Malaria, Chills and Fever

THE BEST PRESCRIPTION IS

Grove's Tasteless Chill Tonic.

The formula is plainly printed on every bottle—hence you know just what you are taking when you take Grove's. Imitators do not advertise their formula knowing that you would not buy their medicine if you knew what it contained. Grove's contains Iron and Quinine put up in correct proportions and is in a Tasteless form. The Iron acts as a tonic while the Quinine drives the malaria out of the system. Any reliable druggist will tell you that Grove's is the **Original** and that all other so-called Tasteless Chill Tonics are imitations. An analysis of other chill tonics shows that Grove's is superior to all others in every respect. You are not experimenting when you take Grove's—its superiority and excellence having long been established. Grove's is the only Chill Cure sold throughout the entire malarial sections of the United States. No Cure, No Pay. Price, 50c.
